Earth Modeling, Characterization, and Well Planning. Landmark’s Earth Modeling Solution is an intuitive and flexible approach to understanding reservoir potential and uncertainty, integrating upstream G&G data to create a static 3D earth model that can be leveraged for a range of critical downstream activities such as flow or basin simulation, well planning, stimulation, and risk analysis.

Geosciences - Landmark Solutions
In a complex world, we use our deep expertise to solve problems that matter. Find out more about RPS's professional services spanning 12 clusters.

1. Introduction. Our understanding of rock slope failure mechanisms has increased considerably during the last decade in response to continued development of urban populations in mountainous areas and to the challenges faced by engineers and geoscientists in the exploitation of large open pit mines.

A critical review of rock slope failure mechanisms: The ...
Robertson. At the heart of Geoscience, a global leader in geology. Robertson was founded in 1961 and has evolved into a global leader in geology for E&P.

CGG: Robertson
Founded in 1970, RPS is a leading global professional services firm of 5,600 consultants and service providers. Operating in 125 countries across all six continents we define, design and manage projects that create shared value to a complex, urbanising and resource-scarce world.
