Biology: Concepts and Connections Media Update (5th Edition)

The title I give to my critique of this book is not a joke. I'm really serious about the phenomenal ability of this fine textbook to be able to explain the concepts of biology so clearly. This wonderful textbook from Neil A. Campbell is a great biology textbook that explains the concepts of basic biology clearly and throughly.

Biology Concepts & Connections (5th) Fifth Edition: Neil A ...

Biology: Concepts and Connections; 5th edition. This book is required for my course but in 6th edition. I chose this edition because it has the same information as the newer edition without the brand new price. The cover is the only thing that I could see was different. The chapters are easy to understand although, of course, there is a lot of ...
