Determinants Of Students Poor Performance

Teachers' self-efficacy beliefs were examined as determinants of their job satisfaction and students' academic achievement. Over 2000 teachers in 75 Italian junior high schools were administered self-report questionnaires to assess self-efficacy beliefs and their job satisfaction. Students' average final grades at the end of junior high school were collected in two subsequent scholastic years.

Intelligence Bibliography. Long before they enter school, children are judged on their relative ability to master such cognitive tasks as solving puzzles, learning the alphabet, and counting.

Brief on Intelligence and Genetic Determinism

Poverty is the scarcity or the lack of a certain (variant) amount of material possessions or money. Poverty is a multifaceted concept, which may include social, economic, and political elements. Absolute poverty, extreme poverty, or destitution refers to the complete lack of the means necessary to meet basic personal needs such as food, clothing and shelter.

Poverty - Wikipedia

Disparities in per-student funding levels are actually greater within some states than among the states as a group. To illustrate, in 1998, public school districts in Alaska that were ranked at the 95th percentile for per-student funding received an average of \$16,546 per student for the year, whereas school districts ranked at the 5th percentile received only \$7,379 on average.
