Getty. Recently, scientists discovered a quirky side effect to having a high IQ: You tend to stay up until later hours and get up later in the morning. That's right -- the more intelligent are also much more likely to be night owls. Which isn't such a surprise when you consider that intelligent people are infamous for burning the midnight oil to cram for tests, write papers, touch up those ...

From January to March 1918, occultist Aleister Crowley is alleged to have performed a series of rituals known as the Amalantrah Workings, using "sexual and ceremonial magick," thereby making magical contact with an intelligence known as Lam. Crowley said of the being, "Lam is the Tibetan word for 'Way' or 'Path,' and Lama is He who Goeth, the specific title of the Gods of Egypt ...
