About our Company. Mathey Dearman prides itself on being the world's foremost authority on preparing pipe for joining together by welding. Since the 1930's, we have been designing and building cutting and beveling machines and clamping, aligning, and reforming systems for pipe and tubing.

Mathey Dearman | PIPE ALIGNMENT & REFORMING CLAMPS & STANDS

Due to the crack nature of the defect and to prevent expansion/bulging and failure of the pipe on either side of the leak repair clamp, it was recommended to install within 1 m on either side of the clamp 12-in. crack arrestors. This will not prevent the pipe from continuing to crack, but if it does it will prevent rupture.
